About Us

REALIVING DESIGN CENTER CORPORATION

Realiving Design Center Corporation is one of the biggest building material supplier in the Philippines. Realflooring, ECON Global, GrandEast Aluminum and Door. Each of them represents the top level in respective field in the Philippines.

Realiving Design Center Corporation was duly incorporated under the trade name Realiving Design Center Corporation situated at 1181 2nd Flr MC Premiere Balintawak, Quezon City. It primarily engages in wholesale and retail competitive priced and high-quality construction, plumbing and decorative materials to both projects and retailers nationwide. Some of the products of the company carries are modular kitchen cabinets, shower enclosures/dividers, lavatory and plumbing fixtures, wooden/steel/pvc aluminum windows, bath tubs, and other ceramic items.

VISION AND MISSION

VISION

To be the elite provider of interiors and to be the forefront of the special architectural industry in the Philippines.

MISSION

To design, to build, and to equip home with the most beautiful and most functional interiors through: cost efficiency, incomparable craftsmanship and quality materials.

OUR SERVICES

DESIGNING

SITE VISITATION WITH OUR DESIGNER TO GET ACCURATE MEASUREMENT FOR DESIGN PRESENTATION USING THE ADVANCE CAD SOFTWARE

FABRICATION

FABRICATION STARTS WITH THE APPROVED DESIGN. USING OUR AUTOMATED MACHINE WITH HIGH ACCURACY STANDARD, WE CAN PRODUCE A HIGH QUALITY PRODUCT.

DELIVERY AND INSTALLATION

WE ENSURE THAT ALL THE PRODUCTS ARE SECURE FOR DELIVERY AND INSTALLED BASED ON THE DESIGN PLAN WITH HIGH PRECISION

THREE MAJOR ABILITIES

Product Abilities

We have warehouse that supplies all of our product and materials. With all of our sister company Ecotex, Ecopipe, Realflooring, Instyle and GrandEast we can provide all the products in the market.

Design Abilities

We have expert designers, Architect and Engineers that collaborates to ensure the precision and accuracy of the design based on the standards.

Production Abilities

Using our automated machines CNC saw, CNC drilling, Edge banding machine and other production machine we can manufacture and produce the product on time. Expert production team will ensure its quality and standard.

LEADING ADVANTAGES

LARGE SCALE PRODUCTION PROCESS

1 Design proposals are converted into manufacturing drawings. Each product is dismantled into panels to realize mixed production of multiple orders.

2 Each panel has its own "ID" on a label, which helps with management of the whole production process.

3 HUAHUA HP330 CNC saw can read the information on the label and then cut boards automatically.

LEADING ADVANTAGES

LARGE SCALE PRODUCTION PROCESS

4 Huahua HH-509R edge banding machine has automatic chamfer/radius function.

5 Huahua SKA-612 ms CNC automatic drilling machine drills holes through the information on the ID label.

6 Finished product are packed and properly warehoused

LEADING ADVANTAGES

ADVANCE SOFTWARES

Designers used KD20 software, AutoCad, Google Sketch Up and Aihouse for their designing to give a realistic visual effect on the design presentation.

The logo for KD20, featuring the letters 'KD' in a bold blue font and '20' in a lighter blue font with a circular design element.The logo for SketchUp, featuring a red 3D cube icon to the left of the word 'SketchUp' in a bold, dark grey font. The background is a grey and white checkerboard pattern.The logo for Autodesk, featuring a large, 3D red letter 'A' to the left of the words 'AUTODESK' and 'AUTOCAD' in a bold, black font.The logo for AiHouse, featuring a stylized orange house icon above the word 'AiHouse' in a bold, black font.

LEADING ADVANTAGES

AUTOMATED PRODUCTION

Designs are produced and fabricated with our automated machines. CNC machine automatically cut boards based on the design specification as well as Drilling Machine which drill holes automatically. Edge Banding machine has chamfer/radius functions. Which produced a high quality product with high precision and accuracy.
